PRODUCT OVERVIEW

Innovative laboratory solutions for your research

THE VERY BEST FOR YOUR RESEARCH

According to a study by the University of St. Gallen, IKA can officially call itself "world market leader". This award encourages us to keep striving for both the best and the smartest technology.

/// INNOVATION

IKA develops and manufactures state-of-the-art solutions. To make our customers' work even more successful, we combine the latest technology with innovative design.

/// SAFETY

One of our top priorities is keeping the users of our laboratory equipment safe. That is why all our products meet the highest safety standards, are CE certified and comply with the requirements of common standards.

/// RELIABILITY

Our dedicated team of engineers provides technical service worldwide. This includes repair, calibration, on-site installation, device qualification and much more.

/// BIOPROCESSING

HABITAT Research

Bioreactor, photobioreactor,
fermenter

/// MIXING

Magnetic Stirrers

Mixing brought to a new level

reddot winner 2022

Overhead Stirrers

From light to challenging stirring tasks

DESIGN
AWARD
2017

/// MIXING

Thermoshakers

Mixing, heating, cooling,
or all at once?

Shakers

Shaking at all levels

/// CRUSHING

Dispersers

Enable the best possible results

reddot winner 2024

Mills and Blenders

From coarse to fine crushing

/// MEASURING VISCOSITY

Viscometers

Stepless measurement
of viscosities

Measuring Stirrers

Display viscosity even during
product development

/// VACUUM TECHNOLOGY

Vacuum Pumps

Powerful, resistant to chemicals and low-maintenance

Vacuum Controller

For a two-point calibration of multiple vacuum sources

/// HEATING / COOLING / TEMPERING

Tempering Chambers

Optimal conditions
for cell cultivation

Dry Block Heaters

Various interchangeable
heating blocks

Temperature Control

For temperature ranges
from -30 °C to 250 °C

Heating Baths

Universally suitable for
use with oil or water

/// SEPARATION

Centrifuges

Separating substances at medium rotational speeds

Rotary Evaporators

From Beginner to Pioneer

Separating substances at medium rotational speeds

/// LIQUID HANDLING

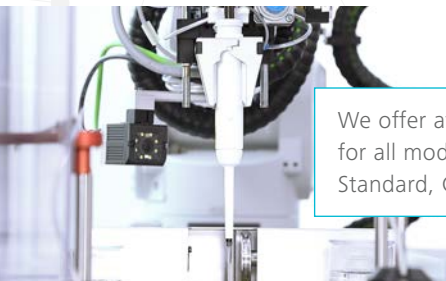

Single Channel Pipettes

Ergonomic feel combined with uncompromising precise performance

Multi Channel Pipettes

Precise performance times 8 or 12

We offer attractive calibration packages for all models of our IKA PETTE series:
Standard, GLP / Pharma, DAkKS

/// REACTOR SYSTEMS

Synthesis Reactors

Optimized for organic or aqueous syntheses

High Viscosity Reactors

For the optimization and reproduction of chemical reactions, mixing, dispersing and homogenizing processes

/// CALORIMETRY

Calorimeters

Market leaders when it comes to determining calorific values

/// CONTROLLING & MEASURING

CalWin C 6040

For calorimeter control and monitoring as well as for evaluating results

labworldsoft® 6

Software to control lab devices, automate processes and document measurements

/// ELECTROCHEMISTRY

ElectraSyn 2.0

3 devices in 1: potentiostat //
analytical device // stir plate

reddot award 2018
winner industrial design

Screening System

Electrosynthesis in multibatch mode

designed for scientists
